ENVIRONMENTAL HEALTH & SAFETY POLICY STATEMENT

“Performance Seats is committed to conducting operations in compliance with applicable federal, state, and local environmental laws and regulations, and to continual improvement through the development of products and processes that minimize their impact on the environment.”

OUR ENVIRONMENTAL HEALTH & SAFETY COMMITMENTS

1 REGULATORY COMPLIANCE

We comply with all applicable federal, state, and local environmental laws and regulations. We proactively monitor regulatory changes and update our practices to remain in full conformance.

2 CONTINUAL IMPROVEMENT

We are committed to ongoing improvement in our environmental management system — setting measurable objectives, tracking performance, and raising the bar year over year.

3 POLLUTION PREVENTION

We design products and engineer processes with environmental impact in mind — reducing waste, emissions, and resource consumption at the source wherever technically and economically feasible.

4 ISO 14001 ALIGNMENT

Our environmental management system is structured in accordance with ISO 14001, ensuring systematic identification and control of our significant environmental aspects across all operations.
